

What could be better than having a little refreshment after a long journey, enjoying the afternoon with a delicious coffee and a piece of cake, being served a glass of champagne or a classic apéritif before the delicious dinner?

Relax after dinner with a digestif or a creative cocktail and let the evening pass in review...

For these and countless other occasions, we welcome you to our foyer bar.

Nehmen Sie sich ruhig ein wenig Zeit, um dieses „Buch“ zu studieren...

Our team will be happy to assist you with advice & action.

You are looking for a cocktail that is not on the menu? You do not find your "favorite spirit"? Feel free to contact us, we will be happy to fulfill your wishes if possible!

Sincerely yours

Team from the Foyerbar

## The history of the bar

At the time of colonization in America developed the bar. That is why the international language of the bar remained English. Immigrants met in the drugstores to make their purchases and discuss their experiences over a glass or two. Most of the time, these social gatherings degenerated into wild brawls and scuffles due to the consumption of alcohol. Thus, the drugstore owners decided to protect themselves and their beverage supplies with a barrier - the "Barrier" - and also to use it as a sales area. The word "bar" was thus derived from the term "barrier".

The original form of the "American Bar", were the Western Saloons, which were already equipped with a counter to lean against. Seating in the bars did not exist at that time.

## The cocktail itself...

Cocktail in German means "cock's tail", and about the origin of the name there are a number of amusing and quite different stories.

One of these many and very frequently mentioned stories is that the cocktail owes its name to cockfights. After the fight was over, the owner of the winning rooster had the right to pull out the colorful tail feathers of the killed rooster. At the subsequent drink, this trophy was doused with a drink "on the cock's tail". Later, these drinks served after the fights were called "cocktail". Many of the stories actually explain the cocktail as a "cock's tail," that is, a drink garnished with a cock's feather.

Other explanations invoke the French word for egg cup (coquetier), in which drinks were supposedly served.

Another possible explanation of the name are those cocktails that are not mixed, but consist of several different colored liquors layered over each other. The different densities, created by different concentrations of sugar and alcohol, create a stable layering when poured carefully. When viewed from the side, these differently colored layers resemble a multicolored rooster's tail.

The actual origin of the word is probably no longer clear today
